SMALL BUSINESS EDITION

Managing Your Business

BusinessVision 32's Small Business Edition offers small enterprises the robustness of a full-featured businesses management and accounting system that larger companies use along with the additional functionality needed to meet the ever-evolving needs of a growing company.

Designed for businesses with sales of up to three million dollars a year, BusinessVision 32's Small Business Edition economically equips small businesses with the power and performance that they need to stay competitive. It also offers a seamless upgrade path to other BusinessVision 32 editions - it will grow as your company grows!

BusinessVision 32 Small Business Edition is a fully inclusive business management system at an affordable price. This system includes 16 modules that work together seamlessly, simultaneously running in real-time, helping to manage all aspects of your business. Thanks to this advanced integration, there is no batch processing or complicated routines required to get a real-time understanding of the financial position of your company. BusinessVision 32 Small Business Edition provides you with true, up-to-the-minute financial reporting all the time.

BusinessVision 32 's Small Business Edition has the following 16 modules:

System Manager, Accounts Receivable, Accounts Payable, General Ledger, Inventory, Order Entry, Point-of-Sale, Sales Analysis, Payroll, Bank Reconciliation, Purchase Order, Purchase Analysis, Job Cost, File Validation, Import/Export and Reporting Suite

BusinessVision 32 Small Business Edition:

- Feature rich with 16 integrated real-time modules
- Dynamically integrates with popular CRM systems including Microsoft Outlook® 2000, INFOtrac®, ACT! 2000®, GoldMine® and Maximizer®
- WYSIWYG ready with over 150 reports - fully customizable with Crystal Report Writer®
- E-commerce ready with e-BusinessVision™
- Network ready - built-in multi-user capability allowing up to 3 concurrent users
- Multiple Currency capable - automatically processes transactions and reports in any currency with the optional Multiple Currency Manager
- Upgradeable to Standard Edition and to the robust SQL Client-Server Edition.
