## 32 SQL Client -Server Edition

### Managing Your Business

BusinessVision 32's ease of use and feature-rich system is available in an industrial-strength Client-Server edition. BusinessVision 32's SQL Client-Server Edition is designed specifically for high transaction, heavy user load situations found in many small to mid sized companies. The BusinessVision 32 SQL Client-Server Edition can handle annual sales of up to \$100 million, and can support up to 100 concurrent users.

#### BusinessVision 32 SQL Client-Server Edition includes 18 modules:

System Manager, Accounts Receivable, Accounts Payable, General Ledger, Inventory, Order Entry, Point-of-Sale, Sales Analysis, Payroll, Bank Reconciliation, Purchase Order, Purchase Analysis, Job Cost, Bills of Material, Budgets and Forecasts, File Validation, Import/Export and Reporting Suite.

BusinessVision 32 SQL Client-Server Edition optimizes performance among users, so that they experience uniform high-speed performance- no more system slowdowns at heavy use time such as at the end of a reporting period! A seamless upgrade path to the BusinessVision 32 SQL Client-Server Edition is available from all BusinessVision 32 products.

#### BusinessVision 32 SQL Client-Server Edition:

- Network ready - Equipped with 10-user capabilities, it can support up to 100 concurrent users with optional user packs
- Dynamically integrates with popular CRM systems including Microsoft Outlook® 2000, ACT! 2000®, GoldMine®, InfoTrac® and Maximizer®
- WYSIWYG ready with over 190 reports - fully customizable with Crystal Reports®
- Customizable with the optional CustomPack™
- Able to support multiple currencies with the addition of the Multiple Currency Manager module
- E-commerce ready with e-BusinessVision™
